POLICIES AND NOTIFICATIONS 2023-2024 SCHOOL YEAR

STUDENT POLICIES - AMERICANS WITH DISABILITIES ACT -

It is the policy of the Springfield Public School District to comply with the provisions of the Americans with Disabilities Act. The ADA prohibits discrimination against qualified individuals with disabilities on the basis of their disability. The ADA provides, in part, that qualified individuals with disabilities shall not be excluded from participating in or be denied the benefits of any program, service or activity offered by this District.

The ADA requires that all programs, services and activities, when viewed in their entirety, are readily accessible to and usable by qualified individuals with disabilities. This District must communicate effectively with individuals who have speech, visual and hearing impairment participating in, or benefiting from, this District's programs, services, or activities to afford equal opportunities.

The district is in the process of doing a self-evaluation and a transition plan (which examines physical barriers) of its current services, policies, and practices for non-discrimination on the basis of disability. All interested persons, including individuals with disabilities or organizations representing individuals with disabilities, are invited to participate in this self-evaluation process by submitting comments. Please contact your local school official or district superintendent for more information.

Also, should you wish to review the ADA or its interpretive regulations, ask questions about your rights and remedies under the ADA, request a reasonable modification to their District's policies, practices, or procedures, participate in the self-evaluation process, or file a written grievance with the district alleging noncompliance with the ADA, please contact the District's Designated Coordinator for the ADA listed: Keith J. Kottke, Superintendent, Springfield Public School, 12 South Burns Avenue, Springfield, MN 56087. Telephone 507-723-4283.

PARENTS OF CHILDREN WITH DISABILITIES IN THE SPRINGFIELD PUBLIC SCHOOL DISTRICT

In response to the State and Federal regulations regarding persons with disabilities, the Springfield Public School District conducts an ongoing survey and analysis of services, programs, policies, and evaluation of structures the District owns for non-discrimination on the basis of disability. As part of the review process, we welcome comments and participation in this report.

If you have any concerns or questions or wish to hear the recommendation of the report, please contact our Coordinator at: Keith J. Kottke, Superintendent, Springfield Public School 12 South Burns Avenue, Springfield, MN 56087. Telephone 507-723-4283.

514 BULLYING PROHIBITION POLICY

[Note: School districts are required by statute to have a policy addressing bullying.]

I. PURPOSE

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student's ability to learn and/or a teacher's ability to educate students in a safe environment. The school district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the educational environment of the school district and the rights and welfare of its students and is within the control of the school district in its normal operations, the school district intends to prevent bullying and to take action to investigate, respond to, and to remediate and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

II. GENERAL STATEMENT OF POLICY

- A. An act of bullying, by either an individual student or a group of students, is expressly prohibited on school premises, on school district property, at school functions or activities, or on school transportation. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their indirect behavior, condone or support another student's act of bullying. This policy also applies to any student whose conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyberbullying regardless of whether such act is committed on or off school district property and/or with or without the use of school district resources.
- B. No teacher, administrator, volunteer, contractor, or other employee of the school district shall permit, condone, or tolerate bullying.
- C. Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.
- D. Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.
- E. False accusations or reports of bullying against another student are prohibited.
- F. A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall

be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures, including the school district's discipline policy (See MSBA/MASA Model Policy 506). The school district may take into account the following factors:

1. The developmental ages and maturity levels of the parties involved;
2. The levels of harm, surrounding circumstances, and nature of the behavior;
3. Past incidences or past or continuing patterns of behavior;
4. The relationship between the parties involved; and
5. The context in which the alleged incidents occurred.

Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The school district shall employ research-based developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the school district, and foster student, parent, and community participation.

Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of bullying may include, but not be limited to, exclusion from school district property and events.

- G. The school district will act to investigate all complaints of bullying reported to the school district and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy.

III. DEFINITIONS

For purposes of this policy, the definitions included in this section apply.

- A. "Bullying" means intimidating, threatening, abusive, or harming conduct that is objectively offensive and:

1. An actual or perceived imbalance of power exists between the student engaging in the prohibited conduct and the target of the prohibited conduct, and the conduct is repeated or forms a pattern; or
2. .Materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges.

The term, "bullying," specifically includes cyberbullying as defined in this policy.

- B. "Cyberbullying" means bullying using technology or other electronic communication, including, but not limited to, a transfer of a sign, signal, writing, image, sound, or data, including a post on a social network Internet website or forum, transmitted through a computer, cell phone, or other electronic device. The term applies to prohibited conduct which occurs on school premises, on school district property, at school functions or activities, on school transportation, or on school computers, networks, forums, and mailing lists, or off school premises to the extent that it substantially and materially disrupts student learning or the school environment.

- C. "Immediately" means as soon as possible but in no event longer than 24 hours.

- D. "Intimidating, threatening, abusive, or harming conduct" means, but is not limited to, conduct that does the following:

1. Causes physical harm to a student or a student's property or causes a student to be in reasonable fear of harm to person or property;
2. Under Minnesota common law, violates a student's reasonable expectation of privacy, defames a student, or constitutes intentional infliction of emotional distress against a student; or
3. Is directed at any student or students, including those based on a person's actual or perceived race, ethnicity, color, creed, religion, national origin, immigration status, sex, marital status, familial status, socioeconomic status, physical appearance, sexual orientation including gender identity and expression, academic status related to student performance, disability, or status with regard to public assistance, age, or any additional characteristic defined in the Minnesota Human Rights Act (MHRA). However, prohibited conduct need not be based on any particular characteristic defined in this paragraph or the MHRA.

- E. "On school premises, on school district property, at school functions or activities, or on school transportation" means all school district buildings, school grounds, and school property or property immediately adjacent to school grounds, school bus stops, school buses, school vehicles, school contracted vehicles, or any other vehicles approved for school district purposes, the area of entrance or departure from school grounds, premises, or events, and all school-related functions, school-sponsored activities, events, or trips. School district property also may mean a student's walking route to or from school for purposes of attending school or school-related functions, activities, or events. While prohibiting bullying at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.

- F. "Prohibited conduct" means bullying or cyberbullying as defined in this policy or retaliation or reprisal for asserting, alleging, reporting, or providing information about such conduct or knowingly making a false report about bullying.

- G. "Remedial response" means a measure to stop and correct prohibited conduct, prevent prohibited conduct from recurring, and protect, support, and intervene on behalf of a student who is the target or victim of prohibited conduct.

- H. "Student" means a student enrolled in a public school or a charter school.

IV. REPORTING PROCEDURE

- A. Any person who believes he or she has been the target or victim of bullying or any person with knowledge or belief of conduct that may

constitute bullying or prohibited conduct under this policy shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report bullying anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.

- B. The school district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building or available in the school district office, but oral reports shall be considered complaints as well.
- C. The building principal, the principal's designee, or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving reports of bullying or other prohibited conduct at the building level. Any person may report bullying or other prohibited conduct directly to a school district human rights officer or the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant. The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as the primary contact on policy and procedural matters. The building report taker or a third party designated by the school district shall be responsible for the investigation. The building report taker shall provide information about available community resources to the target or victim of the bullying or other prohibited conduct, the perpetrator, and other affected individuals as appropriate.
- D. A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include bullying. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute bullying or other prohibited conduct shall make reasonable efforts to address and resolve the bullying or prohibited conduct and shall inform the building report taker immediately. School district personnel who fail to inform the building report taker of conduct that may constitute bullying or other prohibited conduct or who fail to make reasonable efforts to address and resolve the bullying or prohibited conduct in a timely manner may be subject to disciplinary action.
- E. Reports of bullying or other prohibited conduct are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of bullying and the record of any resulting investigation.
- F. Submission of a good faith complaint or report of bullying or other prohibited conduct will not affect the complainant's or reporter's future employment, grades, work assignments, or educational or work environment.
- G. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.

V. SCHOOL DISTRICT ACTION

- A. Within three days of the receipt of a complaint or report of bullying or other prohibited conduct, the school district shall undertake or authorize an investigation by the building report taker or a third party designated by the school district.
- B. The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the bullying or other prohibited conduct, the complainant, the reporter, and students or others, pending completion of an investigation of the bullying or other prohibited conduct, consistent with applicable law.
- C. The alleged perpetrator of the bullying or other prohibited conduct shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
- D. Upon completion of an investigation that determines that bullying or other prohibited conduct has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited conduct. Remedial responses to the bullying or other prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; the student discipline policy (See MSBA/MASA Model Policy 506) and other applicable school district policies; and applicable regulations.
- E. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets of bullying or other prohibited conduct and the parent(s) or guardian(s) of alleged perpetrators of bullying or other prohibited conduct who have been involved in a reported and confirmed bullying incident of the remedial or disciplinary action taken, to the extent permitted by law.
- F. In order to prevent or respond to bullying or other prohibited conduct committed by or directed against a child with a disability, the school district shall, when determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not to engage in bullying or other prohibited conduct.

VI. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who commits an act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of

alleged bullying or prohibited conduct, who provides information about bullying or prohibited conduct, who testifies, assists, or participates in an investigation of alleged bullying or prohibited conduct, or who testifies, assists, or participates in a proceeding or hearing relating to such bullying or prohibited conduct. Retaliation includes, but is not limited to, any form of intimidation, reprisal, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy.

VII. TRAINING AND EDUCATION

- A. The school district shall discuss this policy with school personnel and volunteers and provide appropriate training to school district personnel regarding this policy. The school district shall establish a training cycle for school personnel to occur during a period not to exceed every three school years. Newly employed school personnel must receive the training within the first year of their employment with the school district. The school district or a school administrator may accelerate the training cycle or provide additional training based on a particular need or circumstance. This policy shall be included in employee handbooks, training materials, and publications on school rules, procedures, and standards of conduct, which materials shall also be used to publicize this policy.
- B. The school district shall require ongoing professional development, consistent with Minn. Stat. § 122A.60, to build the skills of all school personnel who regularly interact with students to identify, prevent, and appropriately address bullying and other prohibited conduct. Such professional development includes, but is not limited to, the following:
 - 1. Developmentally appropriate strategies both to prevent and to immediately and effectively intervene to stop prohibited conduct;
 - 2. The complex dynamics affecting a perpetrator, target, and witnesses to prohibited conduct;
 - 3. Research on prohibited conduct, including specific categories of students at risk for perpetrating or being the target or victim of bullying or other prohibited conduct in school;
 - 4. The incidence and nature of cyberbullying; and
 - 5. Internet safety and cyberbullying.
- C. The school district annually will provide education and information to students regarding bullying, including information regarding this school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to prevent bullying and other prohibited conduct.
- D. The administration of the school district is directed to implement programs and other initiatives to prevent bullying, to respond to bullying in a manner that does not stigmatize the target or victim, and to make resources or referrals to resources available to targets or victims of bullying.
- E. The administration is encouraged to provide developmentally appropriate instruction and is directed to review programmatic instruction to determine if adjustments are necessary to help students identify and prevent or reduce bullying and other prohibited conduct, to value diversity in school and society, to develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and recognizing, responding to, and reporting bullying or other prohibited conduct, and to make effective prevention and intervention programs available to students.

The administration must establish strategies for creating a positive school climate and use evidence-based social-emotional learning to prevent and reduce discrimination and other improper conduct.

The administration is encouraged, to the extent practicable, to take such actions as it may deem appropriate to accomplish the following:

 - 1. Engage all students in creating a safe and supportive school environment;
 - 2. Partner with parents and other community members to develop and implement prevention and intervention programs;
 - 3. Engage all students and adults in integrating education, intervention, and other remedial responses into the school environment;
 - 4. Train student bystanders to intervene in and report incidents of bullying and other prohibited conduct to the schools' primary contact person;
 - 5. Teach students to advocate for themselves and others;
 - 6. Prevent inappropriate referrals to special education of students who may engage in bullying or other prohibited conduct; and
 - 7. Foster student collaborations that, in turn, foster a safe and supportive school climate.
- F. The school district may implement violence prevention and character development education programs to prevent or reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, and resourcefulness.
- G. The school district shall inform affected students and their parents of rights they may have under state and federal data practices laws to obtain access to data related to an incident and their right to contest the accuracy or completeness of the data. The school district may accomplish this requirement by inclusion of all or applicable parts of its protection and privacy of pupil records policy (See MSBA/MASA Model Policy 515) in the student handbook.

VIII. NOTICE

- A. The school district will give annual notice of this policy to students, parents or guardians, and staff, and this policy shall appear in the student handbook.

- B. This policy or a summary thereof must be conspicuously posted in the administrative offices of the school district and the office of each school.
- C. This policy must be given to each school employee and independent contractor who regularly interacts with students at the time of initial employment with the school district.
- D. Notice of the rights and responsibilities of students and their parents under this policy must be included in the student discipline policy (See MSBA/MASA Model Policy 506) distributed to parents at the beginning of each school year. Policy shall be available to all parents and other school community members in an electronic format in the language appearing on the school district's or a school's website.
- F. The school district shall provide an electronic copy of its most recently amended policy to the Commissioner of Education.

IX. POLICY REVIEW

To the extent practicable, the school board shall, on a cycle consistent with other school district policies, review and revise this policy. The policy shall be made consistent with Minn. Stat. § 121A.031 and other applicable law. Revisions shall be made in consultation with students, parents, and community organizations.

Springfield Public Schools Board of Education Policy 516.5

516.5 OVERDOSE MEDICATION

[Note: School districts are not required to adopt a policy on the use of emergency drugs for the treatment of drug-related overdoses. School districts and their employees are legally permitted to purchase, store, and administer Naloxone (Narcan) in response to an opiate overdose in schools and those who do assist with such administration are immune from civil liability as well as exempt from criminal prosecution for possession, use, etc. of a prescription medication, particularly to an individual to whom it was not prescribed. The provisions of this policy outline the requirements of the law with respect to the use of Naloxone (Narcan) in schools.]

I. PURPOSE

As a means of enhancing the health and safety of its students, staff and visitors, the school district will require, administer, and store doses of an opiate antagonist, specifically Naloxone (Narcan), and administration devices or kits for emergency use to assist a student, staff member, or other individual believed or suspected to be experiencing an opioid overdose on school district property during the school day or at school district activities.

II. GENERAL STATEMENT OF POLICY

The school board authorizes school district administration to obtain and possess opioid overdose reversal medication, such as Naloxone to be maintained and administered to a student or other individual by trained school staff if the staff member determines in good faith that the person to whom the medication is administered is experiencing an opioid overdose. Authorization for obtaining, possessing and administering Naloxone or similar permissible medications under this policy are contingent upon: 1) the continued validity of state and federal law that permit a person who is not a healthcare professional to dispense an opiate antagonist to the school district and its employees by law; 2) that the school district and its staff are immune from criminal prosecution and not otherwise liable for civil damages for administering the opiate antagonist to another person who the staff member believes in good faith to be suffering from a drug overdose; 3) the availability of funding either from outside sources or as approved by the school board to obtain and administer opioid overdose reversal medication.

III. DEFINITIONS

- A. **"Drug-related overdose"** means an acute condition, including mania, hysteria, extreme physical illness, respiratory depression or coma, resulting from the consumption or use of a controlled substance, or another substance with which a controlled substance was combines, and that layperson would reasonably believe to be a drug overdose that requires immediate medical assistance.
- B. **"Naloxone Coordinator"** is a school district staff person or administrator appointed to monitor adherence to protocols outlined in this policy and referenced procedures. The Naloxone Coordinator is responsible for building-level administration and management of Opiate Antagonist medications and supplies. The school district's Naloxone Coordinator is school nurse.
- C. **"Opiate"** means any dangerous substance having an addiction forming or addiction sustaining liability similar to morphine or being capable of conversion into a drug having such addiction forming or addiction sustaining liability.
- D. **"Opiate Antagonist"** means naloxone hydrochloride ("Naloxone") or any similarly acting drug approved by the federal Food and Drug Administration for the treatment of a drug overdose.
- E. **"Standing Order"** means directions from the school district's medical provider that sets forth how to house and administer Naloxone or other Opiate Antagonist medications to students, staff members or other individuals believed or suspected to be experiencing an opioid overdose. The Standing Order should include the following information:
 - 1. Administration type
 - 2. Dosage
 - 3. Date of Issuance
 - 4. Signature of the authorized provider

IV. GENERAL STATEMENT OF POLICY AND RESPONSIBILITIES

- A. District Collaborative Planning and Implementation Team

To the extent Naloxone is obtained for use consistent with this policy, the school district will establish a district-wide collaborative

planning and implementation team ("District Planning Team") who will oversee the general development and operations related of the use of opiate antagonist Naloxone and regularly report to the school board as to its activities.

1. The District Planning Team will include the Naloxone Coordinator and may include the superintendent (or designee), school nurse, public health experts, first responders, student or family representatives, and community partners who will be assigned to the Team by the superintendent or designee or solicited as volunteers by the superintendent.
 2. The District Planning Team, through the Naloxone Coordinator, will obtain a protocol or Standing Order from a licensed medical prescriber for the use of Naloxone or other Opiate Antagonist by school district staff in all school facilities and activities and will update or renew the protocol or Standing Order annually or as otherwise required. A copy of the protocol or Standing Order will be maintained in the office of the Naloxone Coordinator.
 3. The District Planning Team will develop district-wide guidelines and procedures and determine the form(s) of Naloxone to be used within the school district (nasal, auto injector, manual injector) and the method and manner of arranging for the financing and purchasing, storage and use of Naloxone to be approved by the school board. Once approved by the school board, these guidelines and procedure will be attached and incorporated into this policy. At a minimum, these guidelines and procedures will:
 - a. Ensure that when Naloxone is administered, school district employees must activate the community emergency response system (911) to ensure additional medical support due to the limited temporary effect of Naloxone and the continued need of recipients of additional medical care;
 - b. Require school district employees to contact a school district healthcare professional to obtain medical assistance for the recipient of the Naloxone, if possible, pending arrival of emergency personnel;
 - c. Direct school district employees to make immediate attempts to determine if the recipient is a minor and, if so, locate the identity of the parent or guardian of the minor and ensure contact with that parent or guardian is made as soon as possible after administration of the Naloxone for the purpose of informing the parent or guardian of the actions that have been taken; and
 - d. Require school district staff to inform the building administrator or other administrator overseeing an event or activity of the administration of Naloxone, as well as the Naloxone Coordinator, after taking necessary immediate emergency steps.
 4. The District Planning Team will determine the type and method of annual training, identify staff members at each school site to be trained and coordinate the implementation of the training with the assistance of the Naloxone Coordinator.
- B. Site Planning Teams
1. In consultation with the District Planning Team, the administrator at each school site may establish, in the manner the superintendent or Naloxone Coordinator deems appropriate, a Site Planning Team within the school site.
 2. The Site Planning Team will be responsible for the coordination and implementation of this policy, district-wide guidelines and procedures within the school site and will develop and implement any specific guidelines and procedure for the storage and use of Naloxone within the school site in a manner consistent with this policy and district wide procedure and guidelines.
- C. School District Staff

School district staff members will be responsible for attending all required training pertaining to the policy, procedures and guidelines for the storage and use of Naloxone and performing any assigned responsibilities pursuant to the guidelines and procedures.

V. NALOXONE STORAGE

- A. The Site Planning Team will select numerous Naloxone storage locations within the school site and outside the school site when activities are conducted off school grounds (i.e., transportation services, field trips, etc.).
- [Note: School districts may decide that Naloxone will not be sent on field trips, transportation or activities that occur outside of the typical school day or off school property and may modify this statement accordingly. If Naloxone is provided during these auxiliary activities, schools should ensure that it is only provided if there is an available trained staff member to administer it and that the medication can be safely and legally stored and transported.]***
- B. The selected storage locations of Naloxone will be classified as non-public "security information" as the school board has determined that the disclosure of this data to the general public would be likely to substantially jeopardize the security of the medication that could be subject to theft, tampering, and improper use. Therefore, the identity of the storage locations will be shared only with those school district staff members whom the District Planning Team or Site Team have determined need access to this information to aid public health and safety as determined in the procedures and guidelines.
- C. Stock Naloxone will be clearly labeled, monitored for expiration dates, and stored in a secured location that is accessible by trained staff as set forth in paragraph V.B.

VI. Privacy Protections

The school district will maintain the privacy of students and staff related to the administration of Naloxone as required by law.

¹ Naloxone is the medication that reverses an opioid overdose. Narcan® is the brand name for the intranasal applicator (nasal spray) form of naloxone. Naloxone usually refers to an intramuscular (IN+M) naloxone form that comes in a vial and is administered with a syringe, normally dispensed as an "IM kit."

Springfield Public Schools Board of Education Policy 524

524 INTERNET ACCEPTABLE USE AND SAFETY POLICY

[Note: School districts are required by statute to have a policy addressing these issues.]

I. PURPOSE

The purpose of this policy is to set forth policies and guidelines for access to the school district computer system and acceptable and safe use of the Internet, including electronic communications.

II. GENERAL STATEMENT OF POLICY

In making decisions regarding student and employee access to the school district computer system and the Internet, including electronic communications, the school district considers its own stated educational mission, goals, and objectives. Electronic information research skills are now fundamental to preparation of citizens and future employees. Access to the school district computer system and to the Internet enables students and employees to explore thousands of libraries, databases, bulletin boards, and other resources while exchanging messages with people around the world. The school district expects that faculty will blend thoughtful use of the school district computer system and the Internet throughout the curriculum and will provide guidance and instruction to students in their use.

III. LIMITED EDUCATIONAL PURPOSE

The school district is providing students and employees with access to the school district computer system, which includes Internet access. The purpose of the system is more specific than providing students and employees with general access to the Internet. The school district system has a limited educational purpose, which includes use of the system for classroom activities, educational research, and professional or career development activities. Users are expected to use Internet access through the district system to further educational and personal goals consistent with the mission of the school district and school policies. Uses which might be acceptable on a user's private personal account on another system may not be acceptable on this limited-purpose network.

IV. USE OF SYSTEM IS A PRIVILEGE

The use of the school district system and access to use of the Internet is a privilege, not a right. Depending on the nature and degree of the violation and the number of previous violations, unacceptable use of the school district system or the Internet may result in one or more of the following consequences: suspension or cancellation of use or access privileges; payments for damages and repairs; discipline under other appropriate school district policies, including suspension, expulsion, exclusion, or termination of employment; or civil or criminal liability under other applicable laws.

V. UNACCEPTABLE USES

A. The following uses of the school district system and Internet resources or accounts are considered unacceptable:

1. Users will not use the school district system to access, review, upload, download, store, print, post, receive, transmit, or distribute:
 - a. pornographic, obscene, or sexually explicit material or other visual depictions that are harmful to minors;
 - b. obscene, abusive, profane, lewd, vulgar, rude, inflammatory, threatening, disrespectful, or sexually explicit language;
 - c. materials that use language or images that are inappropriate in the education setting or disruptive to the educational process;
 - d. information or materials that could cause damage or danger of disruption to the educational process;
 - e. materials that use language or images that advocate violence or discrimination toward other people (hate literature) or that may constitute harassment or discrimination.
2. Users will not use the school district system to knowingly or recklessly post, transmit, or distribute false or defamatory information about a person or organization, or to harass another person, or to engage in personal attacks, including prejudicial or discriminatory attacks.
3. Users will not use the school district system to engage in any illegal act or violate any local, state, or federal statute or law.
4. Users will not use the school district system to vandalize, damage, or disable the property of another person or organization, will not make deliberate attempts to degrade or disrupt equipment, software, or system performance by spreading computer viruses or by any other means, will not tamper with, modify, or change the school district system software, hardware, or wiring or take any action to violate the school district's security system, and will not use the school district system in such a way as to disrupt the use of the system by other users.
5. Users will not use the school district system to gain unauthorized access to information resources or to access another person's materials, information, or files without the implied or direct permission of that person.
6. Users will not use the school district system to post private information about another person, personal contact information about themselves or other persons, or other personally identifiable information, including, but not limited to, addresses, telephone numbers, school addresses, work addresses, identification numbers, account numbers, access codes or passwords, labeled photographs, or other information that would make the individual's identity easily traceable, and will not repost a message that was sent to the user privately without permission of the person who sent the message.
 - a. This paragraph does not prohibit the posting of employee contact information on school district webpages or communications

- between employees and other individuals when such communications are made for education-related purposes (i.e., communications with parents or other staff members related to students).
- b. Employees creating or posting school-related webpages may include personal contact information about themselves on a webpage. However, employees may not post personal contact information or other personally identifiable information about students unless:
 - (1) such information is classified by the school district as directory information and verification is made that the school district has not received notice from a parent/guardian or eligible student that such information is not to be designated as directory information in accordance with Policy 515; or
 - (2) such information is not classified by the school district as directory information but written consent for release of the information to be posted has been obtained from a parent/guardian or eligible student in accordance with Policy 515.
- In addition, prior to posting any personal contact or personally identifiable information on a school-related webpage, employees shall obtain written approval of the content of the postings from the building administrator.
- c. These prohibitions specifically prohibit a user from utilizing the school district system to post personal information about a user or another individual on social networks, including, but not limited to, social networks such as "MySpace" and "Facebook."
7. Users must keep all account information and passwords on file with the designated school district official. Users will not attempt to gain unauthorized access to the school district system or any other system through the school district system, attempt to log in through another person's account, or use computer accounts, access codes, or network identification other than those assigned to the user. Messages and records on the school district system may not be encrypted without the permission of appropriate school authorities.
 8. Users will not use the school district system to violate copyright laws or usage licensing agreements, or otherwise to use another person's property without the person's prior approval or proper citation, including the downloading or exchanging of pirated software or copying software to or from any school computer, and will not plagiarize works they find on the Internet.
 9. Users will not use the school district system for conducting business, for unauthorized commercial purposes, or for financial gain unrelated to the mission of the school district. Users will not use the school district system to offer or provide goods or services or for product advertisement. Users will not use the school district system to purchase goods or services for personal use without authorization from the appropriate school district official.
 10. Users will not use the school district system to engage in bullying or cyberbullying in violation of the school district's Bullying Prohibition Policy. This prohibition includes using any technology or other electronic communication off school premises to the extent that student learning or the school environment is substantially and materially disrupted.
- B. The school district has a special interest in regulating off-campus speech that materially disrupts classwork or involves substantial disorder or invasion of the rights of others. A student or employee engaging in the foregoing unacceptable uses of the Internet when off school district premises also may be in violation of this policy as well as other school district policies. Examples of such violations include, but are not limited to, situations where the school district system is compromised or if a school district employee or student is negatively impacted. If the school district receives a report of an unacceptable use originating from a non-school computer or resource, the school district may investigate such reports to the best of its ability. Students or employees may be subject to disciplinary action for such conduct, including, but not limited to, suspension or cancellation of the use or access to the school district computer system and the Internet and discipline under other appropriate school district policies, including suspension, expulsion, exclusion, or termination of employment.
 - C. If a user inadvertently accesses unacceptable materials or an unacceptable Internet site, the user shall immediately disclose the inadvertent access to an appropriate school district official. In the case of a school district employee, the immediate disclosure shall be to the employee's immediate supervisor and/or the building administrator. This disclosure may serve as a defense against an allegation that the user has intentionally violated this policy. In certain rare instances, a user also may access otherwise unacceptable materials if necessary to complete an assignment and if done with the prior approval of and with appropriate guidance from the appropriate teacher or, in the case of a school district employee, the building administrator.

VI. FILTER

- A. With respect to any of its computers with Internet access, the school district will monitor the online activities of both minors and adults and employ technology protection measures during any use of such computers by minors and adults. The technology protection measures utilized will block or filter Internet access to any visual depictions that are:
 1. Obscene;
 2. Child pornography; or
 3. Harmful to minors.
- B. The term "harmful to minors" means any picture, image, graphic image file, or other visual depiction that:
 1. Taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; or
 2. Depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual acts, or a lewd exhibition of the genitals; and
 3. Taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.
- C. Software filtering technology shall be narrowly tailored and shall not discriminate based on viewpoint.
- D. An administrator, supervisor, or other person authorized by the Superintendent may disable the technology protection measure, during use by an adult, to enable access for bona fide research or other lawful purposes.
- E. The school district will educate students about appropriate online behavior, including interacting with other individuals on social

networking websites and in chat rooms and cyberbullying awareness and response.

VI. CONSISTENCY WITH OTHER SCHOOL POLICIES

Use of the school district computer system and use of the Internet shall be consistent with school district policies and the mission of the school district.

VII. LIMITED EXPECTATION OF PRIVACY

- A. By authorizing use of the school district system, the school district does not relinquish control over materials on the system or contained in files on the system. Users should expect only limited privacy in the contents of personal files on the school district system.
- B. Routine maintenance and monitoring of the school district system may lead to a discovery that a user has violated this policy, another school district policy, or the law.
- C. An individual investigation or search will be conducted if school authorities have a reasonable suspicion that the search will uncover a violation of law or school district policy.
- D. Parents have the right at any time to investigate or review the contents of their child's files and e-mail files. Parents have the right to request the termination of their child's individual account at any time.
- E. School district employees should be aware that the school district retains the right at any time to investigate or review the contents of their files and e-mail files. In addition, school district employees should be aware that data and other materials in files maintained on the school district system may be subject to review, disclosure or discovery under Minn. Stat. Ch. 13 (the Minnesota Government Data Practices Act).
- F. The school district will cooperate fully with local, state and federal authorities in any investigation concerning or related to any illegal activities or activities not in compliance with school district policies conducted through the school district system.

IX. INTERNET USE AGREEMENT

- A. The proper use of the Internet, and the educational value to be gained from proper Internet use, is the joint responsibility of students, parents, and employees of the school district.
- B. This policy requires the permission of and supervision by the school's designated professional staff before a student may use a school account or resource to access the Internet
- C. The Internet Use Agreement form for students must be read and signed by the user, the parent or guardian, and the supervising teacher. The Internet Use Agreement form for employees must be signed by the employee. The form must then be filed at the school office. As supervising teachers change, the agreement signed by the new teacher shall be attached to the original agreement.

X. LIMITATION ON SCHOOL DISTRICT LIABILITY

Use of the school district system is at the user's own risk. The system is provided on an "as is, as available" basis. The school district will not be responsible for any damage users may suffer, including, but not limited to, loss, damage, or unavailability of data stored on school district diskettes, tapes, hard drives, or servers, or for delays or changes in or interruptions of service or misdeliveries or nondeliveries of information or materials, regardless of the cause. The school district is not responsible for the accuracy or quality of any advice or information obtained through or stored on the school district system. The school district will not be responsible for financial obligations arising through unauthorized use of the school district system or the Internet.

XI. USER NOTIFICATION

- A. All users shall be notified of the school district policies relating to Internet use.
- B. This notification shall include the following:
 - 1. Notification that Internet use is subject to compliance with school district policies.
 - 2. Disclaimers limiting the school district's liability relative to:
 - a. Information stored on school district diskettes, hard drives, or servers.
 - b. Information retrieved through school district computers, networks, or online resources.
 - c. Personal property used to access school district computers, networks, or online resources.
 - d. Unauthorized financial obligations resulting from use of school district resources/accounts to access the Internet.
 - 3. A description of the privacy rights and limitations of school sponsored/managed Internet accounts.
 - 4. Notification that, even though the school district may use technical means to limit student Internet access, these limits do not provide a foolproof means for enforcing the provisions of this acceptable use policy.
 - 5. Notification that goods and services can be purchased over the Internet that could potentially result in unwanted financial obligations and that any financial obligation incurred by a student through the Internet is the sole responsibility of the student and/or the student's parents.
 - 6. Notification that the collection, creation, reception, maintenance, and dissemination of data via the Internet, including electronic

communications, is governed by Policy 406, Public and Private Personnel Data, and Policy 515, Protection and Privacy of Pupil Records

7. Notification that, should the user violate the school district's acceptable use policy, the user's access privileges may be revoked, school disciplinary action may be taken and/or appropriate legal action may be taken.

8. Notification that all provisions of the acceptable use policy are subordinate to local, state, and federal laws.

XII. PARENTS' RESPONSIBILITY; NOTIFICATION OF STUDENT INTERNET USE

- A. Outside of school, parents bear responsibility for the same guidance of Internet use as they exercise with information sources such as television, telephones, radio, movies, and other possibly offensive media. Parents are responsible for monitoring their student's use of the school district system and of the Internet if the student is accessing the school district system from home or a remote location.
- B. Parents will be notified that their students will be using school district resources/accounts to access the Internet and that the school district will provide parents the option to request alternative activities not requiring Internet access. This notification should include:
 - 1. A copy of the user notification form provided to the student user.
 - 2. A description of parent/guardian responsibilities.
 - 3. A notification that the parents have the option to request alternative educational activities not requiring Internet access and the material to exercise this option.
 - 4. A statement that the Internet Use Agreement must be signed by the user, the parent or guardian, and the supervising teacher prior to use by the student.
 - 5. A statement that the school district's acceptable use policy is available for parental review.

XIII. IMPLEMENTATION; POLICY REVIEW

- A. The school district administration may develop appropriate user notification forms, guidelines, and procedures necessary to implement this policy for submission to the school board for approval. Upon approval by the school board, such guidelines, forms, and procedures shall be an addendum to this policy.
- B. The administration shall revise the user notifications, including student and parent notifications, if necessary, to reflect the adoption of these guidelines and procedures.
- C. The school district Internet policies and procedures are available for review by all parents, guardians, staff, and members of the community.
- D. Because of the rapid changes in the development of the Internet, the school board shall conduct an annual review of this policy.

PPRA Model Notice and Consent/Opt-Out for Specific Activities

The Protection of Pupil Rights Amendment (PPRA), 20 U.S.C. § 1232h, requires **Springfield Public School** to notify you and obtain consent or allow you to opt your child out of participating in certain school activities. These activities include a student survey, analysis, or evaluation that concerns one or more of the following eight areas ("protected information surveys"):

1. Political affiliations or beliefs of the student or student's parent;
2. Mental or psychological problems of the student or student's family;
3. Sex behavior or attitudes;
4. Illegal, anti-social, self-incriminating, or demeaning behavior;
5. Critical appraisals of others with whom respondents have close family relationships;
6. Legally recognized privileged relationships, such as with lawyers, doctors, or ministers;
7. Religious practices, affiliations, or beliefs of the student or parents; or
8. Income, other than as required by law to determine program eligibility.

This requirement also applies to the collection, disclosure or use of student information for marketing purposes ("marketing surveys"), and certain physical exams and screenings.

Springfield Public School will provide parents, within a reasonable period of time prior to the administration of the surveys and activities, notification of the surveys and activities and be provided an opportunity to opt their child out, as well as an opportunity to review the surveys. (Please note that this notice and consent/opt-out transfers from parents to any student who is 18 years old or an emancipated minor under State law.)

Springfield Public Schools Board of Education Policy 535

535 UNPAID MEAL CHARGES

I. PURPOSE

The purpose of this policy is to ensure that students receive healthy and nutritious meals through the school district's nutrition program and that school district employees, families, and students have a shared understanding of expectations regarding meal charges. The policy seeks to allow students to receive the nutrition they need to stay focused during the school day and minimize identification of students with insufficient funds to pay for school meals as well as to maintain the financial integrity of the school nutrition program.

II. PAYMENT OF MEALS

- A.** All meal purchases are to be pre-paid before meal service begins. Payments may be made online through the student information system (infinite Campus Parents Portal-service charge applies) or be mailed/dropped off at the district office, school offices and the Food Service Department. A student who does not have sufficient funds will not be allowed to charge meals or ala carte items until additional money is deposited into the student's account. Free and reduced lunch applications are available at the district office, school office, and Food Service Department. Students will not be able to eat at free/reduced prices until the application is processed and accepted. The student/family is responsible for payment until the process is complete.
- B.** If the school district receives school lunch aid under Minn. Stat. § 124D.111, it must make lunch available without charge to all participating students who qualify for free or reduced-price meals regardless of account balance.
- C.** A student with an outstanding meal charge debt will be allowed to purchase a meal if the student pays for the meal in cash when it is received.
- D.** The school district may provide an alternate meal that meets federal and state requirements to a student who does not have sufficient funds in the student's account or cannot pay cash for a meal. The school district will accommodate special dietary needs with respect to alternate meals. The cost of the alternative meal will be charged at the regular lunch price, as it is a reimbursable meal, to the student's account or otherwise charged to the student.
- E.** When a student has a zero or negative account balance (\$0 or less), the student will not be allowed to charge a snack item.
- F.** If a parent or guardian chooses to send in one payment that is to be divided between sibling accounts, the parent or guardian must specify how the funds are to be distributed to the students' accounts. Funds may not be transferred between sibling accounts unless written permission is received from the parent or guardian.

III. LOW OR NEGATIVE ACCOUNT BALANCES – NOTIFICATION

- A.** The school district will make reasonable efforts to notify families when meal account balances are low or fall below zero. A student who does not have sufficient funds will not be allowed to charge meals or a la carte items until additional money is deposited into the students account. The student will be notified verbally daily with a LOW BALANCE NOTICE at the time of purchase when their lunch balance falls below \$15.00. Parents will be notified electronically and are expected to utilize the district provided automated lunch account notification system that is included in the student information system (Infinite Campus Parent Portal).
- B.** When a student account has a negative balance (\$0 or less), a notice will again be sent to the parent or legal guardian by electronic means.
- C.** Families will be notified of an outstanding negative balance once the balance reaches a negative balance of \$5. Families will be notified electronically and by mail. A modified meal will be made available to the student in lieu of the regular meal. A modified meal will meet the state and federal requirements and student dietary needs. Most often, the modified meal will be defined as a meat, cheese or peanut butter and jelly sandwich, fruit(s), vegetable(s), and a carton of milk. The district will contact Social Services for instances where students are served a modified meal for 3 consecutive school days.
- D.** A modified meal will continue to be made available to the student until the balance has been paid in full.
- E.** Reminders for payment of outstanding student meal balances will not demean or stigmatize any student participating in the school lunch program.

IV. UNPAID MEAL CHARGES

- A.** The school district will make reasonable efforts to communicate with families to resolve the matter of unpaid charges. Where appropriate, families may be encouraged to apply for free and reduced-price meals for their children.
- B.** The school district will make reasonable efforts to collect unpaid meal charges classified as delinquent debt. Unpaid meal charges are designated as delinquent debt when payment is overdue, the debt is considered collectable, and efforts are being made to collect it.
- C.** If a family has incurred a negative balance of more than \$10, not paid prior to the end of the current school year will be turned over to the superintendent or superintendent's designee for collection. Collection options may include, but are not limited to, use of collection agencies, claims in the conciliation court, or any other legal method permitted by law.
- D.** The school district may not enlist the assistance of non-school district employees, such as volunteers, to engage in debt collection efforts.
- E.** The school district will not impose any other restriction prohibited under Minnesota Statutes section 123B.37 due to unpaid student meal balances. The school district will not limit a student's participation in any school activities, graduation ceremonies, field trips, athletics, activity clubs, or other extracurricular activities or access to materials, technology, or other items provided to students due to an unpaid student meal balance.

V. COMMUNICATION OF POLICY

- A.** This policy and any pertinent supporting information shall be provided in writing (i.e., mail, email, back-to-school packet, student handbook, etc.) to:
 - 1. All household at or before the start of each school year;

2. Students and families who transfer into the school district, at the time of enrollment; and
3. All school district personnel who are responsible for enforcing this policy.

B. The school district may post the policy on the school district's website, in addition to providing the required written notification described above.

C. If the school district contracts with a third party for its meal services, it will provide the vendor with its school meals policy. The school district will ensure that any third-party provider with whom the school district enters into either an original or modified contract after July 1, 2021, adheres to the school district's school meals policy.

POLICY AGAINST RELIGIOUS, RACIAL AND SEXUAL HARASSMENT AND VIOLENCE

1. Everyone at District #85 has a right to feel respected and safe. Consequently, we want you to know about our policy to prevent religious, racial or sexual harassment and violence of any kind.
2. A harasser may be a student or an adult. Harassment may include the following when related to religion, race, sex or gender: a) name calling, jokes or rumors; b) pulling on clothing; c) graffiti; d) notes or cartoons; e) unwelcome touching of a person or clothing; f) offensive or graphic posters or book covers; or g) any words or actions that make you feel uncomfortable, embarrass you, hurt your feelings or make you feel bad.
3. If any words or action make you feel uncomfortable or fearful, you need to tell a teacher, counselor, the principal or the Human Rights Officer, Keith Kottke, Superintendent.
4. You may also make a written report. It should be given to a teacher, counselor, the principal or the Human Rights Officer.
5. Your right to privacy will be respected as much as possible.
6. We take seriously all reports of religious, racial or sexual harassment or violence and will take all appropriate actions based on your report.
7. The School District will also take action if anyone tries to intimidate you or take action to harm you because you have reported.
8. This is a summary of the School District policy against religious, racial and sexual harassment and violence. Complete policies are available in the District Office upon request.

RELIGIOUS, RACIAL AND SEXUAL HARASSMENT AND VIOLENCE ARE AGAINST THE LAW. DISCRIMINATION IS AGAINST THE LAW.

CONTACT: Keith J. Kottke, Superintendent - Human Rights Officer, SPRINGFIELD PUBLIC SCHOOL, 12 South Burns Avenue, Springfield, MN 56087. Telephone 507-723-4283.

RIGHTS, PROTECTION AND PRIVACY OF STUDENT RECORDS

Pursuant to the requirements of state and federal law, the following constitutes the Springfield School District's Annual Notification to parents and students regarding data privacy practices.

The Springfield School District has adopted a Student Record Data Privacy Policy incorporating state and federal requirements as to data privacy rights in student educational records. In summary the policy provides:

1. **PRIVACY RIGHTS:** Educational records which identify or could be used to identify a student other than directory information, may not be released to members of the public without the written permission of the parent or guardian of the student or student, age 18 or older if the student attends a post-secondary institution.
2. **DIRECTORY INFORMATION INCLUDES THE FOLLOWING:** Student's name, address, telephone number, date and place of birth, names of parents or guardians, participation in official recognized activities, grade level completed, weight and height of members of athletic teams, dates of attendance, degrees and awards received, the most previous educational institution attended, and photo of the student, if available.
3. **INSPECTION OF RECORDS:** Parents/Guardians of a student or a student, age 18 or older, may request to inspect and review any of the student's educational record except those which are, by state and federal law, made confidential. The school district will comply with the request immediately, if possible, and if not, within five working days. In certain special circumstances an additional five working days may be required in order to comply. Copies of the record may be obtained at a reasonable fee as established by the school district.
4. **CHALLENGE TO ACCURACY OF RECORDS:** A parent, guardian, or student age 18 or older, who believes that specific information in the student's educational record is inaccurate, misleading, incomplete or violates the privacy or other rights of the student may request the school district amend the record in question. If the Building Principal within a period of 30 calendar days, declines to amend the record as requested, the parent, guardian, or student, age 18 or older, will be advised in writing of their right to request and obtain a review of the request with the Superintendent/School Board. If as a result of this review, it is determined that the challenged record is not inaccurate, misleading, incomplete or in violation of the privacy or other rights of the student, the parent, guardian, or student, age 18 or older, will be notified of their rights to place a statement with the record commenting upon it and setting out any reason for disagreeing with the decision of the school district. The decision of the Superintendent/School Board is the final decision of the school district and may be appealed under the provision of the State Administrative Procedure Act, Minnesota Statute C-15, relating to contested cases.

STUDENTS AND EMPLOYEES WITH AIDS AND CERTAIN OTHER COMMUNICABLE DISEASES AND INFECTIOUS CONDITIONS

RATIONALE: Public concern that students and staff of the school district be able to attend the schools of the district without being infected with serious communicable or infectious diseases, including but not limited to, HIV, Acquired Immune Deficiency Syndrome (AIDS), and Hepatitis B, requires that the School Board adopt measures effectively responding to health concerns while respecting the rights of all students, employees, and contractors, including those who are so infected. (Cross reference district policies on ss 504 regarding non-discrimination on the basis of disability.)

SCHOOL DISTRICT POLICY:

1. **Students.** It is the policy of the School Board that students with communicable diseases not be excluded from attending school in their regular classrooms so long as their attendance does not create a substantial risk of the transmission of illness to students or employees of the school district. A procedure for minimizing interruptions to learning resulting from communicable diseases will be established by the school district in

consultation with community health and private health care providers. Procedures for the inclusion of students with communicable diseases will include review of the educational implications for the student and others with whom he or she comes into contact.

- II. Employees.** It is the policy of the School Board that employees with communicable diseases not be excluded from attending to their customary employment so long as they are physically, mentally and emotionally able to safely perform tasks assigned to them and so long as their employment does not create a substantial risk of the transmission of illness to students or employees of the school district.
- III. Special Circumstances and Conditions.** The School Board recognizes that some students and some employees, because of special circumstances and conditions, may pose greater risks for the transmission of infectious conditions than other persons infected with the same illness. Examples include students who display biting behavior, students or employees who are unable to control their bodily fluids, who have oozing skin lesions or who have severe disorders which result in spontaneous external bleeding. These conditions need to be taken into account and considered in assessing the risk of transmission of the disease and the resulting effect upon the educational program of the student or employment of the employee.
- When students with AIDS or HIV have conditions such as oozing skin lesions or spontaneous external bleeding, the school will notify the Commission of Health and request that an advisory committee be convened to evaluate the student and assist the district with a determination of proper educational placement for the student.
- The District shall invite the following members to participate in the advisory committee: the state epidemiologist, a Minnesota Department of Education representative, a pediatrician with expertise in infectious diseases and the student's primary care physician, as well as the members of the student's District Section 504 Committee (reference district policy regarding ss 504), IEP team, superintendent's designee, the student's teacher and school nurse.
- The committee will weigh risks and benefits to the AIDS or HIV infected student and to others, consider the least restrictive appropriate educational placement, and arrange for periodic re-evaluation as deemed necessary by the state epidemiologist. The risks to the infected immune-suppressed students shall be determined by the student's physician.
- IV. Precautions.** The District will develop routine procedures for handling blood spills at school and for educating employees about these procedures. The procedures shall be developed by cooperation with health professionals taking into consideration guidelines of the Minnesota Department of Education and the Minnesota Department of Health (last revised 1988). (These precautionary procedures shall be consistent with District procedures regarding blood-borne pathogens developed pursuant to the district's employee right to know policy.)
- V. Information Sharing.** Employee and student health information shall be shared within the district only with those whose jobs require such information and with those who have a legitimate educational (including health and safety) need to know and shall be shared only to the extent required to accomplish legitimate educational goals and to comply with employees' right to know requirements. (Cross reference district employee right to know policy regarding infectious agents.)
- Employee and student health data shall be shared outside the district only in accordance with state and federal law and with the district's policies on employee and student records.
- VI. Reporting.** If a medical condition of student or staff threatens public health, it must be reported to the Commissioner of Health.
- VII. Prevention.** The district shall, with the assistance of the Commissioners of Health and Education, develop or adopt a program to prevent and reduce the risk of Acquired Immune Deficiency Syndrome in accordance with Minnesota Statute ss 121.203 which includes:
1. Planning materials, guidelines, and other technically accurate and updated information;
 2. A comprehensive, technically accurate, and updated curriculum;
 3. Cooperation and coordination among districts and regional education agencies;
 4. A targeting of adolescents, especially those who may be at high risk of contracting AIDS, for prevention efforts;
 5. Involvement of parents and other community members;
 6. In-Service training for appropriate district staff and school board members;
 7. Collaboration with state agencies and organizations having an AIDS prevention or AIDS risk reduction program;
 8. Collaboration with local community health services, agencies and organizations having an AIDS prevention or AIDS risk reduction program; and
 9. Participation by state and local student organizations.
 10. The program must not conflict with the health and wellness curriculum.
 11. The district may accept funds for AIDS programs developed and implemented under this section from public and private sources including public health funds and foundations, department professional development funds, federal block grants or other federal or state grants.
- VIII. Vaccination and Screening.** The district will develop procedures regarding the administration of Hepatitis B vaccinations and Tuberculosis containment in keeping with current state and federal law.

SPECIAL EDUCATION EVALUATIONS FOR HOME-SCHOOLED OR PRIVATE-SCHOOL STUDENTS

In response to the Individuals with Disabilities Education Improvement Act (IDEIA 2004), Minnesota School Districts must demonstrate that "all children with disabilities, including children with disabilities attending private schools, regardless of the severity of their disabilities, and who are in need of special education and related services, are identified, located and evaluated." This responsibility extends to children with disabilities who are educated at home or in non-public schools.

Upon request, your local public school will provide information to concerned parents on specific disabilities including information about the educational or behavioral characteristics of each disability. Parents who believe their child may indeed have a disability may request information on how to arrange for an evaluation through the district's special education staff.

Parents of students who are evaluated and are found to be eligible for special education services will become part of a team which will develop, implement, and monitor the effectiveness of a Service Plan to meet the identified needs of their children.

If your child is home schooled and you have questions or would like to receive information about specific disabilities or an evaluation: please contact the principal of the school your child would be attending if he/she was enrolled in your resident district public school and was not being educated in your home.

If your child is being educated in a private school and you have questions or would like to receive information about specific disabilities or an evaluation: please contact the principal of the school building your child would attend in the district where the private school is situated.

SCHOOL BUS SAFETY AND CONDUCT RULES

Springfield Public School, along with Superior Transportation Services wishes to inform you of the following School Bus Safety Rules. According to Minnesota Law and the Springfield Board of Education Policy, riding the school bus is a privilege. Continued or serious misbehavior is a danger to the safety of all bus riders and can be cause for loss of bus riding privileges and even suspension from school.

1. Load and unload buses only when stopped.
2. Remain seated when the bus is in motion.
3. You may talk to the driver when the bus is not moving.
4. Know all bus emergency exits and procedures.
5. Use inside voices when talking on the bus.
6. Listen and follow directions given by the driver.
7. Show respect to the bus driver, other passengers and the bus.
8. Profanity, suggestive language, throwing objects in bus or out of window or hanging out the window **WILL NOT BE ACCEPTED**.
9. Bus aisles must be kept free.
10. No person may walk in back of the bus when it is loading or unloading.
11. The bus driver has the authority to assign seats.
12. Students may stay 10 feet away from the bus on all four sides.
13. Students may have food and beverages on the bus providing wrappers and containers are disposed of properly.
14. If abuse of rules occurs, offending individuals will be punished through payment of damages or suspended.
15. Drivers will make every attempt to be on schedule to promote safety.
16. According to school district policy, no weapons will be permitted on school buses.
17. According to school district policy, clothing bearing messages of violence, alcohol, drugs or of sexual nature may not be worn.
18. For the safety of all: a) avoid horseplay; b) avoid distracting the driver; c) respect all riders
19. When entering or exiting the bus: a) line up in an orderly manner; b) avoid horseplay; c) remain outside the bus safety zone -- if you can touch the bus, you are too close.
20. School district policy, regarding the following, apply: a) tobacco, alcohol and controlled substances; b) the use of profanity; c) harassment of any kind
21. Generally, the same behavior is expected of the school bus rider as that which is expected of the student in the classroom.
22. No nuisance articles are allowed.
23. All students will be instructed in proper bus safety.

SCHOOL RESTATES POLICY ON INCLEMENT WEATHER CLOSING:

Parents should take note of the Springfield Schools' winter weather policy as stated below.

Public School Superintendent Keith J. Kottke and Superior Transportation Services, owner, Joe and Ashley Schieffert will decide whether or not to close schools because of inclement weather.

All weather related announcements will be communicated through our Honeywell Instant Alert Program and on the following stations will broadcast our weather announcements:

KLGR - Radio (1490 on the dial), Redwood Falls; KNSG - Radio (94.7 on the dial), Springfield;
KNUJ - Radio (860 on the dial), New Ulm; WCCO - Radio (830 on the dial), Minneapolis
KARE 11 Sunrise, Today Show; KSTP TV and will appear on Channel 5 News at the appropriate time;
KEYC 12 TV and will appear on Channel 12

Superior Transportation Services has requested that parents remain off the telephone while buses are on routes except to inform other parents of bus arrivals. It is helpful for parents to call parents who are two stops prior to their scheduled stop when buses are delayed. When a storm is in progress, or is anticipated, parents may pick up their children any time by reporting to any of the school offices.

Please make sure your children are aware of what to do in the event of an early dismissal from school. Parents are also requested not to call the school to see if school has been called off. If you feel the weather conditions are such that it is unsafe to send your child to school, keep them home for the day. Your school principal will recognize weather as an excused absence, if a note is written by the parent.

Keith J. Kottke, Superintendent

SCHOOL BUS EMERGENCY ROUTES

On the back of this letter is a copy of the emergency routes which have been developed. We plan to use these routes when it is possible to run on plowed, paved roads, but not on the gravel roads. If we need to run on these routes only, we will announce on the radio and TV stations that buses will run on "emergency routes." If we need to use these routes, we would ask people who do not live on the routes to transport their children to

one of the designated pick-up points or to bring their children in to the school.

If we are running emergency routes, the following factors apply:

1. Pick up and drop off times shown on the map are approximate times and reflect regular school hours.
2. Late starts - Add the amount of time for the late start to the pickup time.
3. Afternoon drop off times reflect a 3:04 p.m. dismissal. For an early dismissal, look at the time from the regular dismissal to the drop off and add that amount of time to the early dismissal to get the drop off time. (For example - the regular drop off time is 3:35 p.m. or 17 minutes after school is dismissed. If school is dismissed at 12:45 p.m. the drop off time would be at 1:02 p.m.)
4. The map shows the additional pick up points on the hard surfaced roads. Anyone who lives along these routes and is currently being picked up will continue to be picked up at their regular stops.
5. More than one bus will travel along some of these roads, but only one will stop at each pick up point. Ride the bus that stops, and get on the same bus after school.
6. If there is no one at the drop off point, the child will be brought back into town. We will not leave a child standing alone at an intersection in the country.
7. The Sanborn and in-town buses are not shown on these routes. They will run as normal.

We appreciate your cooperation in helping us deal with the weather conditions this winter, and we would remind you that we do recognize parental discretion on determining whether or not to send your children out during inclement weather.

BUILDING POLICIES - ASBESTOS NOTIFICATION

As a result of recent federal legislation (Asbestos Hazard Emergency Response Act - AHERA), each primary and secondary school in the nation is required to complete a stringent inspection for asbestos and to develop a plan of management for all asbestos-containing building materials. The Springfield Public School has a goal to be in full compliance with this law and is following the spirit, as well as, the letter of the law. As a matter of policy, the district shall continue to maintain a safe and healthful environment for our community's youth and employees.

In keeping with this legislation, all buildings (including portables and support buildings) owned or leased by the Springfield Public School were inspected by EPA accredited inspectors and samples were analyzed by an independent laboratory. Based on the inspection, the school prepared and the state approved a comprehensive management plan for handling the asbestos located within its buildings safely and responsibly. Furthermore, Springfield Public School has completed their 3-Year Re-inspection required by AHERA. Our district buildings, where asbestos-containing materials were found, are under repair, removal and Operations and Maintenance.

This past year Springfield Public School conducted the following with respect to its asbestos containing building materials: ****Implemented our Operations and Maintenance Program***

Federal law requires a periodic walk-through (called "surveillance") every six months of each area containing asbestos. In addition, the law requires all buildings to be re-inspected three years after a management plan is in effect. Institute for Environmental Assessment (IEA) will accomplish this under contract.

Short-term workers (outside contractors - i.e., telephone repair workers, electricians and exterminators) must be provided information regarding the location of asbestos in which they may come into contact. All short-term workers shall contact the lead maintenance person before commencing work to be given this information.

Springfield Public School has a list of the location(s), type(s) of asbestos containing materials found in that school building and a description and time-table for their proper management. A copy of the Asbestos Management Plan is available for review in the school office. Copies are available at 25 cents per page. Questions related to the plan should be directed to Institute for Environmental Assessment (IEA) 1420 E. College Drive, Marshall, MN 56258 at (507) 476-3599 or by contacting Springfield Public School.

INDOOR AIR QUALITY NOTICE

Springfield Public School is proud to be taking a leadership role in providing a safe, comfortable and productive environment for our students and staff so that we achieve our core mission—educating students. Our school will follow the EPA guidance to improve our indoor air quality by preventing as many IAQ problems as possible, and by quickly responding to any IAQ problems that may arise. Good air quality requires an ongoing commitment by everyone in our school because each of us daily makes decisions and performs activities that affect the quality of the air we breathe.

School staff, students and parents can obtain checklists or self-help information so they can properly evaluate their child's home or other out of school situation by contacting the school. Staff and parents can also obtain information about school facility construction, maintenance and housekeeping practices, chemicals used, mold and HVAC related information, chemical producing academic subjects, and pesticide and herbicide applications to determine the extent to which school activities contribute to a child's symptoms by contacting the school.

The Springfield Public School Indoor Air Quality contact person is Keith J. Kottke, Superintendent of Schools. If there are any questions regarding the school's IAQ Program, please feel free to call 507-723-4283.

PESTICIDE GENERAL NOTICE

A Minnesota state law went into effect in year 2000 that requires schools to inform school staff, students and parents if they apply certain pesticides on school property.

Specifically, this law requires schools that apply these pesticides to maintain an estimated schedule of pesticide applications and to make the schedule available to employees and parents/guardians for review or copying at each school office. State law also requires that you be told that the long-term health effects on children from the application of such pesticides or the class of chemicals to which they belong may not be fully understood.

If there are any questions regarding the Springfield Public School integrated Pest management program or you would like more information on the pesticide application schedule, please feel free to call the school at 507-723-4283.

NOTICE CONCERNING USE OF PEST CONTROL MATERIALS:

Our district utilizes a licensed, professional pest control service firm for the prevention and control of rodents, insects, and other pests in and around the district's buildings. Their program consists of:

1. *Inspection and monitoring* to determine whether pests are present, and whether any treatment is needed;
2. Recommendations for maintenance and sanitation to help eliminate pests without the need for pest control materials;
3. Utilization of non-chemical measures such as traps, caulking and screening; and
4. Application of *EPA-registered pest control materials* when needed.

Pests can sting, bite, cause contamination, damage property, and spread disease; therefore, we must prevent and control them. The long-term health effects on children from the application of such pest control materials, or the class of materials to which they belong, may not be fully understood. All pest control materials are chosen and applied according to label directions per Federal law.

An estimated schedule of interior pest control inspections and possible treatments is available for review or copying at each school office. A similar estimated schedule is available for application of herbicides and other materials to school grounds. Parents of students may request to receive, at their expense, prior notification of any application of a pest control material, should such an application be deemed necessary on a day different from the days specified in the schedule. Keith J. Kottke, Superintendent, Springfield Public School, 12 South Burns Avenue, Springfield, MN 56087. Telephone 507-723-4283.

LEAD-IN-WATER ANNUAL NOTIFICATION

Minnesota Statute 121A.335 requires public school buildings serving Pre-Kindergarten through Grade 12 to test for lead in water every five years. Springfield Public Schools has historically conducted and continues to conduct Lead-in-Drinking Water testing per the Minnesota Department of Health guidelines. For more information on the district's lead reduction program and testing results, please contact Keith J. Kottke, Superintendent, Springfield Public School, 12 South Burns Avenue, Springfield, MN 56087 at (507) 723-4283.

SPRINGFIELD STRONG

Mind - We will think critically, be mentally tough, resilient in the face of adversity, and have a growth mindset.

Body - We will care for ourselves by sleeping and eating well, exercising daily, limiting screen time, and filling our days with healthy habits.

Spirit - We will seek a greater purpose and connection in our lives by intentionally engaging with and serving in our community.
